

Hello Councilors,

My name is _____ and I live at _____.

I support a moratorium because we should finish our new Comprehensive Plan before approving projects under outdated ordinances.

I support a moratorium because a commercial RV park does not belong in an established rural residential neighborhood.

I support a moratorium because Ellsworth needs clear rules about where and how campgrounds and commercial businesses should be developed.

I support a moratorium because our rural neighborhood character, quality of life, and financial investments deserve protection.

I support a moratorium because this decision is bigger than one campground—it could set a precedent for commercial development in rural residential neighborhoods throughout Ellsworth.

Thank you for your time and careful consideration.
